AIKEN WOULD STAND NO SHOW AGAINST J. K. TENER

Congressional Honors in District False Hope to Lawrence County Man

NO DISAFFECTION NOW

Conditions Different Than When New Castle Man Got Fusion Support

The Monessen News of yesterday publishes an article regarding the usual stories about Congressional successions which are floating about at this time. One of these is the possible candidacy of Robert K. Aiken of New Castle as an opponent of John K. Tener in the Twenty-fourth district for the Republican nomination at the primaries next June. Regarding this the News says:

"Over in the Twenty-fourth district Robert K. Aiken admits that he has been importuned to become a candidate for Congress against John K. Tener, that he has the proposition under consideration, but said he had not made up his mind what he would do.

"Aiken says he has received many promises of support in Washington county. He will later go to Beaver county to ascertain the feeling of the Republicans in that county. He is said to have the endorsement of Lawrence county Republicans."

In view of the fact that inducements are being held out to Mr. Aiken in certain quarters at the county seat, it may as well be stated that Mr. Aiken's chances for defeating Mr. Tener for the Republican nomination, as compared to the run he gave E. F. Acheson at the general election in 1908, are nil. Conditions now are entirely different. Then Mr. Aiken was a fusion candidate having the Democratic endorsement in the district. In that election he polled 9,674 Democratic votes and 4,489 Lincoln Republican votes in the district. The total fusion vote was 34,163 against 15,490 straight Republican votes in the district for Mr Acheson, giving the latter a plurality of 1,327 in the district.

In a contest for the nomination at the primaries Mr. Aiken could only depend on Republican votes, and in this he would have no possible chance against Mr. Tener, who would be much stronger as a candidate next June than he was in 1908, when he so overwhelmingly defeated Mr. Acheson for the nomination for Congress in the district. Mr. Acheson, who is about the only source of opposition in Washington county to Mr. Tener, could not deliver anywhere near the vote he polled himself in the county in 1908 to an opponent of Mr. Tener from another county. Hundreds of voters who supported Mr. Acheson then, are now among Mr. Tener's staunch supporters, and the latter will get a much larger majority in Washington county next June than was accorded him in 1908.

Had Mr. Aiken depended upon Republican votes in his contest against Mr. Acheson in 1906 he would have been defeated by a pluralty of over 10,000 in the district. His Republican strength represented the disaffected elements in the Republican party, which was infinitely greater at that time than now. There is no disaffected element in the party at present, and it is not at all likely that Mr. Aiken for a moment is seriously considering the proposition to be a candidate for Congress in opposition to Mr. Tener.

Donora to Have Trolley Outlet

Right of Way Secured Along Road County Commissioners Will Build

Arrangements were completed yesterday with the county commissioners and the road supervisors of Carroll township whereby a street car line can be built between Donora and Black Diamond. Black Diamond is on the Pittsburg and Charleroi line while hitherto Donora has been without street car service. Practically all property owners have given right of way without consideration. This work of securing rights of way for the line has been in the hands of R. W. Hezlep of Wilkinsburg. The street car line will follow the county road which is now being bricked.

Millinery Opening.

FEEHAN'S RECORD INSURES ELECTION

District President of Mine Workers Will Have No Serious Opposition

BOARD MEMBER CONTEST

As the time approaches for the nomination of officers in the United Mine Workers organization there seems to be no doubt of the selection of President Francis Feehan to succeed himself in the Pittsburg distict.

The very able manner in which he has handled the various questions the past year, particularly the powder question and his stand on the Mining Commission has endeared him to the miners, not only in this district but in every other district in the Mine Worker' Organization and in the last convention in Pittsburg, he demonstrated very forcibly to the delegates and visiting State and National officers that he knew the wants of the miners and had the courage to fight for them.

There seems to be a very interesting contest for the nomination of a National board member from this district, with the chances very favorable to Frank Gainor of Roscoe. Gainor is one of the best known workers for the organization in this district, having all the qualifications that go to make a leader, being a young man, energetic and sincere with the courage to back up his convictions.

He is a personal friend of John Mitchell and a devoted follower of the district president, Francis Feehan. His many friends claim for him a successful career in the miners' union.

New Trolley Route.

Application for a charter has been made and a route is being surveyed for a trolley line from Blacksville, W. Va., to Washington through Waynesburg. Wheeling and Waynesburg capital is back of the enterprise.

INQUEST SHEDS NO LIGHT

Coroner's Jury Unable to Identify Slayer of Mrs. Catherine Guist

NO CAUSE FOR MURDER

Deputy Coroner R. H. Ferguson was in Monessen yesterday morning and held an inquest in the council chamber into the death of Mrs. Catherine Guist, who was so mysteriously shot and killed at the home of her daughter in Dutchtown on last Wednesday. A jury was empanneled and a number of witnesses were examined, including Mrs. May Tustin, the dead woman's daughter, Reuben Tustin the latter's husband, Mr. and Mrs. James Tustin, George Guist a son of the victim, Dominek Terese, who is said to have been in the vicinity of the shooting, a Mrs. Appleton, and a Mrs. Goodwin.

Nothing definite was uncovered that would throw any light on the identity of the guilty person. A murder theory upon which the officers had been working was not substantiated and the jury rendered a verdict as follows:

"We, the jury, find that Mrs. Catherine Guist came to her death by a gun shot wound at the hands of a person unknown to us."

The impression at the close of the investigation was in support of the original theory of accidental shooting.

GOOD MATERIAL HERE

Charleroi Likely to Have Good Football Team Here This Season

If present plans materialize Charleroi will have a football team this season and a good one. It is supposed the first game will be played on Saturday of this week with the North Charleroi team which is said to be strong.

The players who have thus far signified their intention of playing are Frank and Tom Mangan, Crill, Ed. and Frank Miller, Deitz, Planton, Carroll, Stitts, Lhoest, Province, Phillips, Shears, Will and Robert Newton, Gates, Glover, Steinman, Wilson, Furnier, Mason, Thompson, McDermott and Bentz. Of this number Carrol and Stitts are from Fayette City. A schedule of games is being arranged and the prospets are that sports will not be dead here this season especially in football. It is hoped to get one or two more players out, that have played in Charleroi before.

Tax Notice.

All taxpayers who have not paid 1907 and 1908 taxes should note that they are long overdue and must be paid without further delay.

Only a few weeks will be allowed persons to make settlement before liens will be filed against their properties.

All who receive notices of delinquent occupation taxes must pay within the required time or I will be compelled to collect by law.

B. L. Parsons, collector, 502 Fallowfield avenue, Charleroi, Pa. 35t3

Brick Costs Less.

It is stated at the commissioners' office in Washington that the contract let for building the road between Donora and Monongahela with brick is less than was bid for macadamizing the same roads when bids were advertised for some time ago. At that time the bid for building the road of macadam was $5,000 more than the contract has since been let to build the road of brick. The first bids were rejected by the commissioners as being too high.

Millinery Opening.

Mrs. Dawson wishes to announce to her many patrons and friends that her Millinery opening will take place Thursday, September 30. A splendid line of the seasons latest and attractive productions will be on view. Children's hats a specialty, 602 Fallowfield avenue. 36t1

GETS $500 FINE AND ONE YEAR

Foster Father of Annie Gates Pleads Guilty in Court Today

CASE IS FROM AXLETON

In the Allegheny county court at Pittsburg today Frederick G. Chambers of Axleton, charged with a serious crime against his 17-year-old foster daughter Annie Gates, plead guilty to the charge. He was sentenced to pay a fine of $500 and undergo an imprisonment of one year in the workhouse. This information was telephoned from Pittsburg by Humane Officer Wm. Gelder, who was the private prosecutor in the case.

It will be remembered that Annie Gates the foster daughter of Chambers, disappeared from her home at Axleton August 14. Chambers made a big ado, alleging that the girl had been kidnaped. That evening the girl turned up at the residence of J. A. Riggs at Speers, in a sick and exhausted condition. She was cared for by Mrs. Riggs who notified Humane Officer Gelder of Charleroi, as well as the police. The girl made a serious charge against Chambers, her foster father, stating that was the reason she left home.

On this information Chambers was arrested and held for court. He pleaded guilty to one charge and was sentenced accordingly.

RESEMBLES SHAKESPEARE

Romantic Period Portrayed at Coyle Theatre Opening Tomorrow Night

"The Lily and the Prince," Frank Holland's greatest success, which marks the opening of the Coyle Theatre here tomorrow night, is a striking portrayal of the Shakespearean age. This new play transpires in Italy, in the sixteenth century, and evolves a story of intense interest with a theme that invites comparison with "Cymbeline" Shakespeare's great drama. It has that rhetorical sonority which our grandfathers delighted in, and that poetic romanticism in which our grandmothers doted. All the demands of dramatic art are served and yet the situations are toned down so that the most delicate sensibilities are never offended. The play is staged gorgeously and is well worth spending an evening in interesting entertainment. The box office is now open for the sale of tickets.

Millinery Opening.

Mrs. Dawson wishes to announce to her many patrons and friends that her Millinery opening will take place Thursday, September 30. A splendid line of the season's latest and attractive productions will be on view. Childre n's hats a specialty, 602 Fallowfield avenue. 36t1

Will Irrigate Farm.

Joseph Haube reports the work on his irrigation plant in Fallowfield township coming on quite nicely and the pipes are ready to lay. With such a complete outfit Mr. Haube should stand out as a factor in furnishing choice early vegetables in the spring.

Notice.

All Lady Maccabees are requested to meet at P. H. C. hall tonight at 8 o'clock. Capt Mary McGee with the assistance of Capt. Daile Jolliffe will instruct us for our public drill that we are going to give in the near future.

36t1 Laura M. Eckel, L. C.

In the account of the Royal Arcanum banquet yesterday the caterer should have been Joseph Allsopp and the cook of the Hotel Myford, instead of Geo. Myford, the proprietor. The Mail was misinformed on this subject.

C. E. Bell reports some very large and substantial sales for his car lock, which is manufactured at Reeseville, W. Va.

SEEK CITIZENSHIP ON ACCOUNT OF NEW GUN LAW

Cops Must Arrest Air Gun Shooters

This Sort of Sport is Prohibited in Towns and Boroughs

As an additional protection to the game laws a law passed by the last Legislature prohibits the hunting for, capture, or killing of wild birds and game by non-naturalized foreign-born residents, or the ownership or possession of shotguns or rifle by any non-naturalized, foreign-born resident within the State. Search warrants may be issued for their homes and a fine of $25 or one day's imprisonment for every dollar imposed inflicted.

Constables and police officers violate their duty when they fail to arrest any man or boy caught discharging any flobert rifle, air gun, or spring gun, in any city or borough, as one of the new laws, for the protection of children of parents who do not purchase such harmful play things for their children, against others who do, was passed, with this object in view as well as the protecti n of citizens who might be exposed to careless handling of toy guns in built-up sections.

MORALITY AMONG MINERS IS GREAT

Over Four Lives are Lost for Every Million Tons Mined

LAWS ARE NOT OBSERVED

Chief James Roderick, in his annual report to the State Department of Mines, states that within the past ten years there have been in the counties of Allegheny, Westmoreland, Fayette, Washington Cambria, Jefferson, Somerset, Clearfield and Indiana 2,236 lives lost in the coal mines by falling slate, 578 by cars, 876 by explosions of dust and gas and 445 by miscellaneous causes—a total of 4,128.

For every 1,000 persons employed inside the mines 3.93 lives were lost, and for every 1,000,000 tons of coal producted 4.32 miners were killed. In all the other coal producing counties only 206 lives were lost, or 1 for every 454,945 tons produced.

Chief Roderick states that proper legislation would remedy the situation greatly and decrease the death total if proper laws were made and enforced.

The total output of coal for last year was 114,437,375 tons compared with 149,5569,047 tons in 1907, or a decrease of 34,621,669 net tons. The prolonged drought of the summer and fall of last year interfered greatly with the output and no doubt, was the cause of the decrease in tonnage, as most of the coal is shipped by water.

Want More Miners.

The Hazelkirk and Acme mines are seeking more men, it being stated that 10 additional miners could be used at each mine. The number of orders now on hand is a record breaker and the mine has been running at full capacity all summer. It is stated that the pospects for the winter are unusually bright.

Enforcement Stimulates Petitions Among Aliens for Naturalization Papers

THIS PRIVILEGE VALUED

Recent Act by Congress Increases Difficulties in Acquiring Citizenship

Remote as it may appear the passage of a new game law by the Legislature last year has stimulated the application for naturalization papers on the part of many foreigners. This is the law prohibiting an alien from owning a gun, and consequently debarring him from the pleasures of hunting. Since that law went into effect there have been more applications than usual, chiefly on account of the privilege an alien cannot enjoy.

Chas. O. Frye, who for a number of years was assistant paymaster at the Pittsburg Plate Glass works, and has assisted during that time over 100 aliens to become naturalied, stated that on account of the passage of the gun laws he has received a number of applications lately. Owing to a change in the naturalization laws by Congress in 1906 it is more difficult and expensive to take out naturalization papers, and for that reason citizenship is not attained so readily as formerly.

Under this new law all naturalization papers have to be referred to the Bureau of Immigration and Naturalization in the Department of Commerce of and Labor, which keeps tab on the steamship arrivals. This involved so much work that the county courts do not care to handle the petitions, and they must be granted by the United States court in Pittsburg. Every applicant must appear in person before the court there when he files his petition, and when he appears for final hearing. Both times he must be accompanied by two citizens who have a personal knowledge of the petitioner for at least five years. No witnesses are required to first papers.

Before this act was passed petitioners appeared before the county court and with two witnesses could appear for each other as fast as naturalized. Now the process is difficult and expensive and fewer papers are taken out.

Bond Issue for McKeesport.

A bond issue for $168,000 is contemplated by McKeesport councils. When the Finance Committee meets next week it will discuss the subject. It is planned to use the money to pay street and sewer assessments against the city which have been accumulating for 15 years. McKeesport recently issued $85,000 worth of bonds.

Some of the Obstacles.

If those people who are continually criticising the standard of the public schools in Charleroi, or in any other town, for that matter, knew what obstacles the principal and teachers have to contend with, they would perhaps modify their judgment. In addition to the natural disinclination of the youthful mind to work and study, the multitude of demoralizing influences that present themselves in the towns are legion. The larger the town the greater these obstacles, until the schools have to put up a line of resistance in this repsect that takes nearly as much time and energy as must be expended in teaching.

Chief among these is the outside entertainments that the churches, lodges, and various other organizations promote with the aid of the children. Something like this is on foot almost continually, and some time during the term all of the pupils are relayed into something of the kind. This breaks into the studies and school interest, and the rehearsals, and other detracting influences are most demoralizing. It is perhaps a safe assertion that a juvenile entertainment put on during the school term keeps those who take part in it from attaining one or two higher grades during the term. By this it will be seen that parents who permit this detraction are paying a fearful price for the privilege.

All parents should resolutely frown down requests for their children to take part in entertainments during the school term. This is most essential in the higher grades, particularly with high school pupils. One of the reasons why private schools and academies attain a higher standard than the public high schools is because home study periods are rigidly exacted and no detracting influences are permitted. Pupils who must devote three hours or more to home study cannot begin to keep pace with the proper course by taking part in private theatricals and other social functions. It is this that lowers the standard of the public schools, and the faculty gets the blame.

A Social Benefit.

The idea of a country club for this section seems to have struck a responsive chord, and the movement has taken definite action. There is an ample field for an institution of this sort, and co-operation on the part of those who are in a position to take advantage of such an organization will insure success. The indications are that the country club will be a go.

Perhaps the chief function of the country club is the opportunity it affords for men of congenial tastes to meet and enjoy one another's society. In cities and large towns there is not the time nor opportunity to be neighborly as in the rural communities. As a matter of fact one's neighbors are scattered far and wide in the populous communities, and there is no opportunity to drop into one another's houses for an evening of recreation. Time and distance prohibit this, and for this reason the country club performs an admirable mission. It is here that healthy and rational amusements can be provided, and where persons of congenial tastes can meet by appointment and fraternize at regular intervals. This is the mission of the country club, and its establishment in this community will add much to the enjoyment of a busy people.

Government Forests.

A bulletin from the Government Forest Service at Washington, D. C., says that Prussia, has National forests, covering early 7,000,000 acres, which are made up much as if the pineries of the Southern States of this country and the forests of some of the Middle Atlantic and Central States were combined. When forestry was begun by Prussia, a great part of the timberland had been injured by mismanagement, much as American forests have been, and the Prussian foresters had to solve the problem of improving the run-down forests out of the returns from those which were still in good condition. They solve it with striking success. Immense improvement has already taken place and is steadily going on.

The method of management adopted calls for a sustained yield—that is, no more wood is cut than the forest produces. Under this management the growth of the forest, and consequently the amount cut, has risen sharply. In 1830 the yield was twenty cubic feet per acre; in 1865, twenty-four cubic feet; in 1890, fifty-two cubic feet, and 1904, sixty-five cubic feet. In other words, Prussian forest management has multiplied the rate of production three-fold in seventy-five years. And the quality of the product has improved with the quanitity. Between 1830 and 1904 the percentage of saw timber rose from nineteen per cent to fifty-four per cent.

It is a striking fact in this connection that in the United States at the present time the people use about three times as much timber as the forests grow. If we were everywhere practicing forestry with a resulting improvement equal to that made in Prussia, the forests of this country would be growing as much as we use.

Electric Sparks

Today's the day, according to a noted scientist, when the earth is to be stretched out like a lemon. Its well to bear this in mind, as it is said there'll be something doing in the process.

Down in Pittsburg they've found out that a moving picture storage house is as dangerous as a nitro-glycerine magazine.

What next! Her comes a magazine writer who seriously advises staid and sober citizens to get on a "bat" once in awhile, as a matter of physical culture, instead of playing golf, swinging dumb bells or dieting on cereals.

When a blast fails to explode it is not a wise thing to look for the cause of the trouble. You're too apt to find it.

It was the late and lamented Josh Billings who said that every man had an inalienable right to make a dumb fool of himself, but it isn't always prudent.

Stealing a man's wife is bad enough, but when the man in the case drives off a herd of milk cows in the bargain, it's adding insult to injury.

If a couple of State constables had been riding the country roads in Union township, its more than likely no speakeasy would have thrived in that section. Then that little shooting-up case wouldn't have occurred, with its incidental expenses.

Sending a drunk over to jail for sixty days with the winter coming on is what might be considered capital punishment—from his standpoint.

A most unfortunate combination for a person to have is a porterhouse appetite on a chuck steak income.

HANDICAPPED

This is the Case with Many Charleroi People.

Too many Charleroi citizens are handicapped with a bad back. The increasing pain causes constant misery, making work a burden and stooping or lifting an impossibilty. The back aches at night, preventing refreshing rest and in the morning is stiff and lame. Plasters and liniments may give relief but cannot reach the cause. To eliminate the pains and aches you must cure the kidneys.

Doan's Kidney Pills cure sick kidneys, and cure them permanently. Can you doubt Charleroi evidence?

Mrs. Charles Bromwick, 714 Washington Ave., Charleroi, Pa., says: "About two years ago I suffered from a severe attack of kidney disease and although I used many remedies, I was unable to obtain relief. My head ached almost constantly, had pains in my back and was tired nearly all the time. Doan's Kidney Pills were recommended to me and I procured a box at Piper Bros.' drug store. In a very few days I felt their beneficial effect and a continued use of the remedy effected a complete cure. I have had no return of kidney trouble since and am consequently glad to endorse Doan's Kidney Pills." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Girls Who Work

are especially exposed to the dangers of female organic disorders. Lydia E. Pinkham's Vegetable Compound has enabled thousands of girls to hold their positions.

Read what this girl says:

Paw Paw, Mich.—"I suffered terribly from female ills, including inflammation and congestion, for several years. My doctor said there was no hope for me but an operation. I began taking Lydia E. Pinkham's Vegetable Compound, and I can now say I am well."—Emma Draper.

And this girl:

Indianapolis, Ind.—"I suffered from a severe female weakness and got so bad that I believe I would have died if I had not obtained relief soon. One doctor said nothing would cure me but an operation.

"My aunt advised me to try Lydia E. Pinkham's Vegetable Compound as it had done so much good for her. I did and found it to be the right medicine to cure female troubles and build up the system, and I am now in better health than I ever expected to be."—Bessie V. Piper, 29 S. Addison St., Indianapolis, Ind.

Is it not reasonable to suppose that a medicine that did so much for these girls will do the same for any other girl who is suffering with the same troubles?

These testimonial letters are the genuine and truthful statements from honest people.

Does it not seem the only sensible thing to give such a medicine at least a trial? You may be sure that it can do you no harm, and there is lots of proof that it will do you much good.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

FARM BARGAINS

Several Farms for sale on easy terms or will trade for desirable Charleroi property.

The owners of these farms are too old to work the land, and desire to dispose of their farms. All are within 2½ miles of Charleroi. 50 acres to 100 acres in size. Good buildings and outbuildings These are rare opportunities.

Do Crows Recognize Sunday?

A large number of crows were foraging for food not long ago close to the house of a farmer in West Virginia. They were unusually bold, as though hunger had driven them to forget their usual shyness and distrust of their natural enemies—men.

Two of them alighted close to the back door and picked up the crumbs with an apparent assurance of their safety not easily accounted for. The farmer was telling a neighbor about the tameness of the birds, and the latter remarked:

"You won't see them foolhardy tomorrow."

"Why not tomorrow as well as today?"

"Because today is Sunday, and these crows know it. They know that one day in seven they are not popped at by boys and men. They can count, crows can, and they know that on the seventh day they are exempt from persecution.

"I once lived near a swamp where thousands of crows made their roosting place, and early in the morning they used to start for the mountains for their food. I was often out with my gun trying to get a shot at them. Week days they were shy of me, and I seldom got a shot at them, but on Sunday morning it was different. Then they would fly low and close to my house, their wings almost flapping the ridgeboards of house and barns. Do crows know when it is Sunday? Of course they do."—Exchange.

Telling the Time.

One of the accurate ways of telling the time is to use your hand as an hour mark. Nothing simpler. All farmers not possessed of watches or clocks and who have some practical notions of common utilities not invented by man, but given to us by the Creator, know the rule. It is necessary to keep in mind the hour of sunrise and sunset and to hold the arm straight out from the shoulder, with the hand at right angles, bending from the wrist forward. If the sun sets at 7 o'clock and is still high in the heavens close one eye and make three measures of the width of the palm near the thumb. Each measure means one hour. Three measures mean three hours, so that the time thus obtained is 7 less 3, or 4 o'clock. With practice you can beat the average watch.—New York Press.

Talking in sleep is more common than is generally supposed. Of 200 students between the ages of twenty and thirty 41 per cent of the men and 87 per cent of the women talked in their sleep, and most of them could answer questions.—Harper's Weekly.

True of Trouble.

"He's out of a job now. He had a good opportunity, but he didn't take the trouble to improve it."

"Yes, it's a funny thing about trouble, isn't it? If you don't take it you'll have it."—Philadelphia Ledger.

THE CHARLEROI MAIL

Entered second class mail at Charleroi, June 16, 1903, according to Act of Congress of March 3, 1879

VOL. X. NO. 36. CHARLEROI, WASHINGTON CO., PA., WEDNESDAY, SEPTEMBER 29, 1909. One Cent.

AIKEN WOULD STAND NO SHOW AGAINST J. K. TENER

Congressional Honors in District False Hope to Lawrence County Man

NO DISAFFECTION NOW

Conditions Different Than When New Castle Man Got Fusion Support

The Monessen News of yesterday publishes an article regarding the usual stories about Congressional successions which are floating about at this time. One of these is the possible candidacy of Robert K. Aiken of New Castle as an opponent of John K. Tener in the Twenty-fourth district for the Republican nomination at the primaries next June. Regarding this the News says:

"Over in the Twenty-fourth district Robert K. Aiken admits that he has been importuned to become a candidate for Congress against John K. Tener, that he has the proposition under consideration, but said he had not made up his mind what he would do.

"Aiken says he has received many promises of support in Washington county. He will later go to Beaver county to ascertain the feeling of the Republicans in that county. He is said to have the endorsement of Lawrence county Republicans."

In view of the fact that inducements are being held out to Mr. Aiken in certain quarters at the county seat, it may as well be stated that Mr. Aiken's chances for defeating Mr. Tener for the Republican nomination, as compared to the run he gave E. F. Acheson at the general election in 1908, are nil. Conditions now are entirely different. Then Mr. Aiken was a fusion candidate having the Democratic endorsement in the district. In that election he polled 9,674 Democratic votes and 4,489 Lincoln Republican votes in the district. The total fusion vote was 34,168 against 15,490 straight Republican votes in the district for Mr Acheson, giving the latter a plurality of 1,327 in the district.

In a contest for the nomination at the primaries Mr. Aiken could only depend on Republican votes, and in this he would have no possible chance against Mr. Tener, who would be much stronger as a candidate next June than he was in 1908, when he so overwhelmingly defeated Mr. Acheson for the nomination for Congress in the district. Mr. Acheson, who is about the only source of opposition in Washington county to Mr. Tener, could not deliver anywhere near the vote he polled himself in the county in 1908 to an opponent of Mr. Tener from another county. Hundreds of voters who supported Mr. Acheson then, are now among Mr. Tener's staunch supporters, and the latter will get a much larger majority in Washington county next June than was accorded him in 1908.

Had Mr. Aiken depended upon Republican votes in his contest against Mr. Acheson in 1906 he would have been defeated by a pluralty of over 10,000 in the district. His Republican strength represented the disaffected elements in the Republican party, which was infinitely greater at that time than now. There is no disaffected element in the party at present, and it is not at all likely that Mr. Aiken for a moment is seriously considering the proposition to be a candidate for Congress in opposition to Mr. Tener.

Donora to Have Trolley Outlet

Right of Way Secured Along Road County Commissioners Will Build

Arrangements were completed yesterday with the county commissioners [illegible] township whereby a street car line can be built between Donora and Black Diamond. Black Diamond is on the Pittsburg and Charleroi line while hitherto Donora has been without street car service. Practically all property owners have given right of way without consideration. This work of securing rights of way for the line has been in the hands of R. W. Hezlep of Wilkinsburg. The street car line will follow the county road which is now being bricked.

Millinery Opening.

Mrs. Dawson wishes to announce to her many patrons and friends that her Millinery opening will take place Thursday, September 30. A splendid line of the seasons latest and attractive productions will be on view. Children's hats a specialty, 602 Fallowfield avenue. 36t1

FEEHAN'S RECORD INSURES ELECTION

District President of Mine Workers Will Have No Serious Opposition

BOARD MEMBER CONTEST

As the time approaches for the nomination of officers in the United Mine Workers organization there seems to be no doubt of the selection of President Francis Feehan to succeed himself in the Pittsburg district.

The very able manner in which he has handled the various questions the past year, particularly the powder question and his stand on the Mining Commission has endeared him to the miners, not only in this district but in every other district in the Mine Worker' Organization and in the last convention in Pittsburg, he demonstrated very forcibly to the delegates and visiting State and National officers that he knew the wants of the miners and had the courage to fight for them.

There seems to be a very interesting contest for the nomination of a National board member from this district, with the chances very favorable to Frank Gainor of Roscoe. Gainor is one of the best known workers for the organization in this district, having all the qualifications that go to make a leader, being a young man, energetic and sincere with the courage to back up his convictions.

He is a personal friend of John Mitchell and a devoted follower of the district president, Francis Feehan. His many friends claim for him a successful career in the miners' union.

New Trolley Route.

Application for a charter has been made and a route is being surveyed for a trolley line from Blacksville, W. Va., to Washington through Waynesburg. Wheeling and Waynesburg capital is back of the enterprise.

INQUEST SHEDS NO LIGHT

Coroner's Jury Unable to Identify Slayer of Mrs. Catherine Guist

NO CAUSE FOR MURDER [illegible]

Deputy Coroner R. H. Ferguson was in Monessen yesterday morning and held an inquest in the council chamber into the death of Mrs. Catherine Guist, who was so mysteriously shot and killed at the home of her daughter in Dutchtown on last Wednesday. A jury was empanneled and a number of witnesses were examined, including Mrs. May Tustin, the dead woman's daughter, Reuben Tustin the latter's husband, Mr. and Mrs. James Tustin, George Guist a son of the victim, Dominek Terese, who is said to have been in the vicinity of the shooting, a Mrs. Appleton, and a Mrs. Goodwin.

Nothing definite was uncovered that would throw any light on the identity of the guilty person. A murder theory upon which the officers had been working was not substantiated and the jury rendered a verdict as follows:

"We, the jury, find that Mrs. Catherine Guist came to her death by a gun shot wound at the hands of a person unknown to us."

The impression at the close of the investigation was in support of the original theory of accidental shooting.

GOOD MATERIAL HERE

Charleroi Likely to Have Good Football Team Here This Season

If present plans materialize Charleroi will have a football team this season and a good one. It is supposed the first game will be played on Saturday of this week with the North Charleroi team which is said to be strong.

The players who have thus far signified their intention of playing are Frank and Tom Mangan, Crill, Ed. and Frank Miller, Deitz, Planton, Carroll, Stitts, Lhoest, Province, Phillips, Ebears, Will and Robert Newton, Gates, Glover, Steinman, Wilson, Fornier, Mason, Thompson, McDermott and Bentz. Of this number Carrol and Stitts are from Fayette City. A schedule of games is being arranged and the prospects are that sports will not be dead here this season especially in football. It is hoped to get one or two more players out, that have played in Charleroi before.

Tax Notice.

All taxpayers who have not paid 1907 and 1908 taxes should note that they are long overdue and must be paid without further delay.

Only a few weeks will be allowed persons to make settlement before liens will be filed against their properties.

All who receive notices of delinquent occupation taxes must pay within the required time or I will be compelled to collect by law.

B. L. Parsons, collector, 502 Fallowfield avenue, Charleroi, Pa. 35t8

Brick Costs Less.

It is stated at the commissioners' office in Washington that the contract let for building the road between Donora and Monongahela with brick is less than was bid for macadamizing the same roads when bids were advertised for some time ago. At that time the bid for building the road of macadam was $5,000 more than the contract has since been let to build the road of brick. The first bids were rejected by the commissioners as being too high.

Millinery Opening.

Mrs. Dawson wishes to announce to her many patrons and friends that her Millinery opening will take place Thursday, September 30. A splendid line of the seasons latest and attractive productions will be on view. Children's hats a specialty, 602 Fallowfield avenue. 36t1

GETS $500 FINE AND ONE YEAR

Foster Father of Annie Gates Pleads Guilty in Court Today

CASE IS FROM [illegible]

In the Allegheny county court at Pittsburg today Frederick G. Chambers of Axleton, charged with a serious crime against his 17-year-old foster daughter Annie Gates, plead guilty to the charge. He was sentenced to pay a fine of $500 and undergo an imprisonment of one year in the workhouse. This information was telephoned from Pittsburg by Humane Officer Wm. Gelder, who was the private prosecutor in the case.

It will be remembered that Annie Gates the foster daughter of Chambers, disappeared from her home at Axleton August 14. Chambers made a big ado, alleging that the girl had been kidnaped. That evening the girl turned up at the residence of J. A. Riggs at Speers, in a sick and exhausted condition. She was cared for by Mrs. Riggs who notified Humane Officer Gelder of Charleroi, as well as the police. The girl made a serious charge against Chambers, her foster father, stating that was the reason she left home.

On this information Chambers was arrested and held for court. He pleaded guilty to one charge and was sentenced accordingly.

RESEMBLES SHAKESPEARE

Romantic Period Portrayed at Coyle Theatre Opening Tomorrow Night

"The Lily and the Prince," Frank Holland's greatest success, which marks the opening of the Coyle Theatre here tomorrow night, is a striking portrayal of the Shakespearean age. This new play transpires in Italy, in the sixteenth century, and evolves a story of intense interest with a theme that invites comparison with "Cymbeline" Shakespeare's great drama. It has that rhetorical sonority which our grandfathers delighted in, and that poetic romanticism in which our grandmothers doted. All the demands of dramatic art are served and yet the situations are toned down so that the most delicate sensibilities are never offended. The play is staged gorgeously and is well worth spending an evening in interesting entertainment. The box office is now open for the sale of tickets.

Millinery Opening.

Mrs. Dawson wishes to announce to her many patrons and friends that her Millinery opening will take place Thursday, September 30. A splendid line of the season's latest and attractive productions will be on view. Children's hats a specialty, 602 Fallowfield avenue. 36t1

Will Irrigate Farm.

Joseph Haube reports the work on his irrigation plant in Fallowfield township coming on quite nicely and the pipes are ready to lay. With such a complete outfit Mr. Haube should stand out as a factor in furnishing choice early vegetables in the spring.

Notice.

All Lady Maccabees are requested to meet at P. H. C. hall tonight at 8 o'clock. Capt Mary McGee with the assistance of Capt. Dalle Jolliffe will instruct us for our public drill that we are going to give in the near future.

36t1 Laura M. Eckel, L. C.

In the account of the Royal Arcanum banquet yesterday the caterer should have been Joseph Allsopp and the cook of the Hotel Myford, instead of Geo. Myford, the proprietor. The Mail was misinformed on this subject.

C. E. Bell reports some very large and substantial sales for his car lock, which is manufactured at Reeseville, W. Va.

SEEK CITIZENSHIP ON ACCOUNT OF NEW GUN LAW

Cops Must Arrest Air Gun Shooters

This Sort of Sport is Prohibited in Towns and Boroughs

As an additional protection to the game laws a law passed by the last Legislature prohibits the hunting for, capture, or killing of wild birds and game by non-naturalized foreign-born residents, or the ownership or possession of shotguns or rifle by any non-naturalized, foreign-born resident within the State. Search warrants may be issued for their homes and a fine of $25 or one day's imprisonment for every dollar imposed inflicted.

Constables and police officers violate their duty when they fail to arrest any man or boy caught discharging any flobert rifle, air gun, or spring gun, in any city or borough, as one of the new laws, for the protection of children of parents who do not purchase such harmful play things for their children, against others who do, was passed, with this object in view as well as the protecti n of citizens who might be exposed to careless handling of toy guns in built-up sections.

MORALITY AMONG MINERS IS GREAT

Over Four Lives are Lost for Every Million Tons Mined

LAWS ARE NOT OBSERVED

Chief James Roderick, in his annual report to the State Department of Mines, states that within the past ten years there have been in the counties of Allegheny, Westmoreland, Fayette, Washington Cambria, Jefferson, Somerset, Clearfield and Indiana 2,238 lives lost in the coal mines by falling slate, 578 by cars, 876 by explosions of dust and gas and 445 by miscellaneous causes—a total of 4,128.

For every 1,000 persons employed inside the mines 3.93 lives were lost, and for every 1,000,000 tons of coal producted 4.32 miners were killed. In all the other coal producing counties only 296 lives were lost, or 1 for every 454,945 tons produced.

Chief Roderick states that proper legislation would remedy the situation greatly and decrease the death total if proper laws were made and enforced.

The total output of coal for last year was 114,437,375 tons compared with 149,5569,047 tons in 1907, or a decrease of 34,621,669 net tons. The prolonged drought of the summer and fall of last year interfered greatly with the output and no doubt, was the cause of the decrease in tonnage, as most of the coal is shipped by water.

Want More Miners.

The Hazelkirk and Acme mines are seeking more men, it being stated that 10 additional miners could be used at each mine. The number of orders now on hand is a record breaker and the mine has been running at full capacity all summer. It is stated that the pospects for the winter are unusually bright.

Enforcement Stimulates Petitions Among Aliens for Naturalization Papers

THIS PRIVILEGE VALUED

Recent Act by Congress Increases Difficulties in Acquiring Citizenship

Remote as it may appear the passage of a new game law by the Legislature last year has stimulated the application for naturalization papers on the part of many foreigners. This is the law prohibiting an alien from owning a gun, and consequently debarring him from the pleasures of hunting. Since that law went into effect there have been more applications than usual, chiefly on account of the privilege an alien cannot enjoy.

Chas. O. Frye, who for a number of years was assistant paymaster at the Pittsburg Plate Glass works, and has assisted during that time over 100 aliens to become naturalied, stated that on account of the passage of the gun laws he has received a number of applications lately. Owing to a change in the naturalization laws by Congress in 1906 it is more difficult and expensive to take out naturalization papers, and for that reason citizenship is not attained so readily as formerly.

Under this new law all naturalization papers have to be referred to the Bureau of Immigration and Naturalization in the Department of Commerce of and Labor, which keeps tab on the steamship arrivals. This involved so much work that the county courts do not care to handle the petitions, and they must be granted by the United States court in Pittsburg. Every applicant must appear in person before the court there when he files his petition, and when he appears for final hearing. Both times he must be accompanied by two citizens who have a personal knowledge of the petitioner for at least five years. No witnesses are required to first papers.

Before this act was passed petitioners appeared before the county court and with two witnesses could appear for each other as fast as naturalized. Now the process is difficult and expensive and fewer papers are taken out.

Bond Issue for McKessport.

A bond issue for $168,000 is contemplated by McKeesport councils. When the Finance Committee meets next week it will discuss the subject. It is planned to use the money to pay street and sewer assessments against the city which have been accumulating for 15 years. McKeesport recently issued $85,000 worth of bonds.

Millinery Opening.

M. Dooley.....Dunlevy
E. L. Kibler.....Lock No. 4

Sept. 29 in American History.

1813—American troops under General William Henry Harrison recaptured Detroit from the British.

1825—Daniel Shays, veteran of the American Revolution and leader of Shays' rebellion in Massachusetts in 1786, died; born 1740.

1867—The Emperor Maximilian shot at Queretaro by order of the Mexican government.

1873—Admiral John Ancrum Winslow, U. S. N., hero of the Kearsarge-Alabama fight, died; born 1811.

ASTRONOMICAL EVENTS.

Sun sets 5:42, rises 5:51; moon rises 6:33 p. m.; 4 a. m., planet Mercury apparently stationary; 6:58 a. m., moon in conjunction with Saturn, passing from west to east of the planet.

Some of the Obstacles.

If those people who are continually criticising the standard of the public schools in Charleroi, or in any other town, for that matter, knew what obstacles the principal and teachers have to contend with, they would perhaps modify their judgment. In addition to the natural disinclination of the youthful mind to work and study, the multitude of demoralizing influences that present themselves in the towns are legion. The larger the town the greater these obstacles, until the schools have to put up a line of resistance in this repsect that takes nearly as much time and energy as must be expended in teaching.

Chief among these is the outside entertainments that the churches, lodges, and various other organizations promote with the aid of the children. Something like this is on foot almost continually, and some time during the term all of the pupils are seized into something of the kind. This breaks into the studies and school interest, and the rehearsals, and other detracting influences are most demoralizing. It is perhaps a safe assertion that a juvenile entertainment put on during the school term keeps those who take part in it from attaining one or two higher grades during the term. By this it will be seen that parents who permit this detraction are paying a fearful price for the privilege.

All parents should resolutely frown down requests for their children to take part in entertainments during the school term. This is most essential in the higher grades, particularly with high school pupils. One of the reasons why private schools and academies attain a higher standard than the public high schools is because home study periods are rigidly exacted and no detracting influences are permitted. Pupils who must devote three hours or more to home study cannot begin to keep pace with the proper course by taking part in private theatricals and other social functions. It is this that lowers the standard of the public schools, and the faculty gets the blame.

A Social Benefit.

The idea of a country club for this section seems to have struck a responsive chord, and the movement has taken definite action. There is an ample field for an institution of this sort, and co-operation on the part of those who are in a position to take advantage of such an organization will insure success. The indications are that the country club will be a go.

Perhaps the chief function of the country club is the opportunity it affords for men of congenial tastes to meet and enjoy one another's society. In cities and large towns there is not the time nor opportunity to be neighborly as in the rural communities. As a matter of fact one's neighbors are scattered far and wide in the populous communities, and there is no opportunity to drop into one another's houses for an evening of recreation. Time and distance prohibit this, and for this reason the country club performs an admirable mission. It is here that healthy and rational amusements can be provided, and where persons of congenial tastes can meet by appointment and fraternize at regular intervals. This is the mission of the country club, and its establishment [illegible] the enjoyment of a busy people.

Government Forests.

A bulletin from the Government Forest Service at Washington, D. C., says that Prussia, has National forests, covering early 7,000,000 acres, which are made up much as if the pineries of the Southern States of this country and the forests of some of the Middle Atlantic and Central States were combined. When forestry was begun by Prussia, a great part of the timberland had been injured by mismanagement, much as American forests have been, and the Prussian foresters had to solve the problem of improving the run-down forests out of the returns from those which were still in good condition. They solve it with striking success. Immense improvement has already taken place and is steadily going on.

The method of management adopted calls for a sustained yield—that is, no more wood is cut than the forest produces. Under this management the growth of the forest, and consequently the amount cut, has risen sharply. In 1880 the yield was twenty cubic feet per acre; in 1865, twenty-four cubic feet; in 1890, fifty-two cubic feet, and 1904, sixty-five cubic feet. In other words, Prussian forest management has multiplied the rate of production three-fold in seventy-five years. And the quality of the product has improved with the quanitity. Between 1880 and 1904 the percentage of saw timber rose from nineteen per cent to fifty-four per cent.

It is a striking fact in this connection that in the United States at the present time the people use about three times as much timber as the forests grow. If we were everywhere practicing forestry with a resulting improvement equal to that made in Prussia, the forests of this country would be growing as much as we use.

Electric Sparks

Today's the day, according to a noted scientist, when the earth is to be stretched out like a lemon. Its well to bear this in mind, as it is said there'll be something doing in the process.

Down in Pittsburg they've found out that a moving picture storage house is as dangerous as a nitro-glycerine magazine.

What next! Her comes a magazine writer who seriously advises staid and sober citizens to get on a "bat" once in awhile, as a matter of physical culture, instead of playing golf, swinging dumb bells or dieting on cereals.

When a blast fails to explode it is not a wise thing to look for the cause of the trouble. You're too apt to find it.

It was the late and lamented Josh Billings who said that every man had an inalienable right to make a dumb fool of himself, but it isn't always prudent.

Stealing a man's wife is bad enough, but when the man in the case drives off a herd of milk cows in the bargain, it's adding insult to injury.

If a couple of State constables had been riding the country roads in Union township, its more than likely no speakeasy would have thrived in that section. Then that little shooting-up case wouldn't have occurred, with its incidental expenses.

Sending a drunk over to jail for sixty days with the winter coming on is what might be considered capital punishment—from his standpoint.

A most unfortunate combination for a person to have is a porterhouse appetite on a chuck steak income.

HANDICAPPED

This is the Case with Many Charleroi People.

Too many Charleroi citizens are handicapped with a bad back. The increasing pain causes constant misery, making work a burden and stooping or lifting an impossibilty. The back aches at night, preventing refreshing rest and in the morning is stiff and lame. Plasters and liniments may give relief but cannot reach the cause. To eliminate the pains and aches you must cure the kidneys.

Doan's Kidney Pills cure sick kidneys, and cure them permanently. Can you doubt Charleroi evidence?

Mrs. Charles Boemisk, 715 Washington Ave., Charleroi, Pa., says: "About two years ago I suffered from a severe attack of kidney disease and although I used many remedies, I was unable to obtain relief. My head ached almost constantly, had pains in my back and was tired nearly all the time. Doan's Kidney Pills were recommended to me and I procured a box at Piper Bros.' drug store. In a very few days I felt their beneficial effect and a continued use of the remedy effected a complete cure. I have had no return of kidney trouble since and am consequently glad to endorse Doan's Kidney Pills." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Girls Who Work

are especially exposed to the dangers of female organic disorders. Lydia E. Pinkham's Vegetable Compound has enabled thousands of girls to hold their positions.

Read what this girl says:

Paw Paw, Mich.—"I suffered terribly from female ills, including inflammation and congestion, for several years. My doctor said there was no hope for me but an operation. I began taking Lydia E. Pinkham's Vegetable Compound, and I can now say I am well."—Emma Draper.

And this girl:

Indianapolis, Ind.—"I suffered from a severe female weakness and got so bad that I believe I would have died if I had not obtained relief soon. One doctor said nothing would cure me but an operation.

"My aunt advised me to try Lydia E. Pinkham's Vegetable Compound as it had done so much good for her. I did and found it to be the right medicine to cure female troubles and build up the system, and I am now in better health than I ever expected to be."—Bessie V. Piper, 29 S. Addison St., Indianapolis, Ind.

Is it not reasonable to suppose that a medicine that did so much for these girls will do the same for any other girl who is suffering with the same troubles?

These testimonial letters are the genuine and truthful statements from honest people.

Does it not seem the only sensible thing to give such a medicine at least a trial? You may be sure that it can do you no harm, and there is lots of proof that it will do you much good.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

FARM BARGAINS

Do Crows Recognize Sunday?

A large number of crows were foraging for food not long ago close to the house of a farmer in West Virginia. They were unusually bold, as though hunger had driven them to forget their usual shyness and distrust of their natural enemies—men.

Two of them alighted close to the back door and picked up the crumbs with an apparent assurance of their safety not easily accounted for. The farmer was telling a neighbor about the tameness of the birds, and the latter remarked:

"You won't see them foolhardy tomorrow."

"Why not tomorrow as well as today?"

"Because today is Sunday, and these crows know it. They know that one day in seven they are not popped at by boys and men. They can count, crows can, and they know that on the seventh day they are exempt from persecution.

"I once lived near a swamp where thousands of crows made their roosting place, and early in the morning they used to start for the mountains for their food. I was often out with my gun trying to get a shot at them. Week days they were shy of me, and I seldom got a shot at them, but on Sunday morning it was different. Then they would fly low and close to my house, their wings almost flapping the ridgeboards of house and barns. Do crows know when it is Sunday? Of course they do."—Exchange.

Telling the Time.

One of the accurate ways of telling the time is to use your hand as an hour mark. Nothing simpler. All farmers not possessed of watches or clocks and who have some practical notions of common utilities not invented by man, but given to us by the Creator, know the rule. It is necessary to keep in mind the hour of sunrise and sunset and to hold the arm straight out from the shoulder, with the hand at right angles, bending from the wrist forward. If the sun sets at 7 o'clock and is still high in the heavens close one eye and make three measures of the width of the palm near the thumb. Each measure means one hour. Three measures mean three hours, so that the time thus obtained is 7 less 3, or 4 o'clock. With practice you can beat the average watch.—New York Press.

Talking in sleep is more common than is generally supposed. Of 200 students between the ages of twenty and thirty 41 per cent of the men and 37 per cent of the women talked in their sleep, and most of them could answer questions.—Harper's Weekly.

True of Trouble.

"He's out of a job now. He had a good opportunity, but he didn't take the trouble to improve it."

"Yes, it's a funny thing about trouble, isn't it? If you don't take it you'll have it."—Philadelphia Ledger.
